Jeff, Earle,

I have attached the revised write up for insertion into the Phase 1 draft report. I tried to simplify the write up a bit, but also added some relevant information. And I still have a couple comments that we will need to discuss. I will have to get Jeff a couple more references.

Jeff, I reluctantly added another figure that we will have to reproduce or copy from the Gallaher and Cary 1986 report that showed the state's sampling locations. I think in light of the discussion we are adding, we need this figure. Let me know what you think.

Some of the terminology may need to be checked with rest of document for consistency.

Jeff, please insert this section and resend a clean version of the report for review.

Thanks,

Mark
